<p>Additional information</p>	<p>This program will follow the American Chemical Society-certified San Diego State University (USA) Chemistry-Biochemistry B.S. Degree Program in Georgia initiated in 2015. The faculty and staff members in this program have interned at the SDSU main campus in California and same instructors are already teaching SDSU-Georgia courses independently.</p> <p>After finishing the 4th semester, students will take placement test in English (critical thinking, reading and writing test). If students do not get passing points, LING 305 course will become compulsory for them in the 5th semester (instead of one elective course). If students get a passing grade, they can choose LING 305 as an elective.</p>
