Memorable Learning Experience

- **Boost your clinical confidence** in preparation for rotations, OSCE's, residency, and other medical licencing examinations.
- **Sharpen your decision-making skills** throughout the continuum of care on a self-driven, gamified platform.
- **A fun and flexible gamified experience** suited to all types of students no matter your style of learning or confidence levels.

Engage in your Education

- **Practice treating multiple medical conditions**, determine treatment plans and better understand impacts on the healthcare system.
- **Experience different outcomes** and the consequences of your decisions in a safe and ethical environment.
- **Receive multiple forms of feedback** to help identify your mistakes now to prevent errors in the clinic.

Knowledge Anytime, Anywhere!

- **Improve your quality and breadth of knowledge** anytime, anywhere!
- **Advance as a student and clinician** inside a virtual hospital with more than 120 patients available on demand.
- **Easily access 750+ additional Educational Resources** including curricular modules, videos, lectures, and more at your fingertips.
